WHY GENX

Force preservation is more than casualty movement.

Heavy manual lifting is a major source of responder injury. GenX™ takes the load off your crew, helping them stay safe, ready and on shift.

- **Eliminates heavy manual lifting during extraction and evacuation**
- **Reduces physical strain and the manpower each call demands**
- **Controlled casualty extraction off-pavement and in remote settings**

INDUSTRY ENDORSED

Endorsed across paramedic services, medicine, fire service, search and rescue, industrial safety and military sectors.

Dr. Alexander MacQuarrie, PhD, points to its potential to improve patient safety and reduce paramedic fatigue.

GENION

MOTORIZED TRACKED EXTRACTION PLATFORM

GenX™

Advanced Extraction Support, Anywhere.

Built by paramedics for responders beyond the pavement.

GENION.CARE

THE PLATFORM

When terrain stops conventional tools, GenX™ keeps moving.

GenX™ is a motorized tracked extraction system built on Genion's patented powered track-and-wheel mobility system. It's dual-purpose and made for all terrain.

POWERED ASSIST
The platform does the work

TRACKED TRACTION
Stairs, slopes and soft ground

LARGE WHEELS
Stability on uneven ground

PARTNER SUPPORT
Service and battery health

LOAD — WEIGHT — RUNTIME —

BEYOND THE PAVEMENT

Built for every surface.

DESIGNED TO NAVIGATE

- **STAIRS** — Up or down
- **ICE & SNOW** — Cold conditions
- **GRASS** — Uneven ground
- **MUD** — Soft terrain
- **SAND & GRAVEL** — Loose surfaces
- **HILLS** — Inclines
- **INDOORS** — Smooth floors

From indoor flooring to urban, rural, remote and industrial settings.

WHO IT'S FOR

One platform. Every responder.

- **EMS & PARAMEDIC RESPONSE**
- **FIRE SERVICE**
- **SEARCH & RESCUE**
- **INDUSTRIAL SAFETY**
- **MILITARY OPERATIONS**
